- ZP high school
- Tenth
- COMPLETION YEAR: 2017
- CGPA: 8.3

- APSWRS College
- INTERMEDIATE
- COMPLETION YEAR: 2019
- CGPA: 9.29
- DURGA SOFTWARE TECHNOLOGIES
- JAVA FULL STACK
- COMPLETION YEAR: PRESENT

## Professional Experience:

### Software Development Engineer (SDE) Intern

Bluestock Fintech

Duration: 2 months

- Contributed as a developer in a 4-member team to build a website, following structured project guidelines and achieving set milestones.
- Conducted testing and debugging to enhance website performance, usability, and cross-browser compatibility.
- Collaborated effectively with team members, ensuring seamless integration of all components and successful project delivery.

### Full Stack Java Developer Intern

EazyBytes

Duration: 1 month

- Developed 3 full-stack applications: a real-time Chat Application, E-Commerce Inventory Management System, and Fitness Management System using Java, ReactJS, MySQL, and Spring Boot.
- Gained hands-on experience in both front-end and back-end development, implementing features like real-time communication, secure authentication, and user engagement mechanisms.
- Applied Spring Boot and MySQL to manage user data, session handling, transactions, and secure payment processing for e-commerce applications.

### FULL STACK JAVA DEVELOPER TRAINEE

DURGA SOFTWARE SOLUTION, HYDERABAD

AUG-2023 TO PRESENT

- Completed comprehensive training on full stack Java development
- Developed and deployed live projects
- Gained hands-on experience with Java, Spring Boot, Hibernate, and SQL

- Enhanced troubleshooting skills through real-time use cases

## Technical Skills

- **Programming Languages:** Core Java, adv java, Basics of C.
- **Web Technologies:** HTML, CSS, JavaScript,
- **Frameworks and tools:** Spring, Spring boot, Hibernate, Basics of micro services and web services.
- **Databases:** Sql, Oracle, Basics of MySQL.
- **Version Control:** Git

## PROJECTS

### Full Stack Chat Application

Technologies used: Core Java, adv java, ReactJS, MySQL, Spring Boot

- Developed a real-time chat application with user authentication, message broadcasting, and a chat room feature.
- Implemented the back-end using Spring Boot to manage user sessions and message persistence with MySQL database.
- Designed the front-end with ReactJS to create an interactive and user-friendly interface.
- Integrated WebSocket for real-time communication between users, ensuring seamless message flow.

### E-Commerce Inventory Management System

Technologies used: Core Java, adv java, ReactJS, MySQL, Spring Boot

- Developed a system to manage product buying, selling, and booking details for an e-commerce platform.
- Implemented a back-end with Spring Boot and MySQL to handle inventory data and transactions.
- Built a responsive front-end using ReactJS for real-time inventory updates and user interaction.
- Integrated secure user authentication and payment processing for reliable operations.

### Fitness Management System

Technologies used: Core Java, adv java, ReactJS, MySQL, Spring Boot

- Developed a system to track walking distance, task completion progress, and send drink water reminders.
- Implemented Spring Boot and MySQL for back-end data storage and user management.
- Created a responsive user interface using ReactJS for real-time fitness tracking.
- Integrated notifications and progress tracking to enhance user engagement.

## Certifications

- Full Stack Java Development from (Training).
- Full Stack Java Developer from (Internship).
- Software Development engineer (SDE) from (internship).
- Java Programming
- Freedom with AI
- ChatGPT for Coders
